

MOVIE

EQUESTRIAN
MOVEMENT
FOR VAULTERS

Official competence partner of DOKR
– German National Training Center

General Information

The place of location for the training device MOVIE is crucial for its safe use and longevity. To ensure your safety, the following conditions apply to the training room:

- ⌚ The MOVIE must be placed on firm ground. Riding hall floor (sand) is unsuitable.
- ⌚ A two-meter safety distance is required in all directions between MOVIE and walls.
- ⌚ The height of the training room depends on the purpose of use. Individual vaulters need at least 2,5 m above the top line of MOVIE (4 m high ceiling), and vaulting squads require 4,5 m above the top line (6 m high ceiling).

The following conditions must be observed in order to maintain the guarantee:

- ⌚ The place of location must remain frost-free throughout the year. Exposure of the training device MOVIE to temperatures below freezing is not permitted.
- ⌚ The exposure to humidity should be moderate. Gymnastic halls and other enclosed spaces are considered as standard. Stables, riding halls or outdoor areas are not suitable. Extended exposure to increased humidity will void the warranty.
- ⌚ The training device MOVIE has to be protected against excessive dust.

Design Options

- ⌚ **Height:** between 115 cm and 145 cm
(This choice depends primarily on the ceiling height of your training facility. The taller MOVIE is the better choice for advanced vaulters that like to train ground jumps as well, whereas the small MOVIE offers better conditions for the trainer to assist technically difficult elements. Please contact us if you require further information on this topic.)
- ⌚ **Colour:** Beige, dark brown and black are our standard colours of upholstery. Depending on availability, we also offer other colours.
- ⌚ **Head / Neck:** It is possible to order a horse's head-shaped element or a short neck element. The short neck element is advantageous when it comes to giving support while swinging into a handstand (scissors and flank), since the head-shaped element might obstruct the trainer.

Purchase Information

Prices (as of: May 7 2019)

MOVIE – Model S2

12.800 EURO
(inclusive VAT)

The purchase is possible worldwide. Outside the European Union (EU), 19% VAT may be deducted from the purchase price, provided that it is accompanied by a certificate of export duty.

When selling to private persons within the EU, the gross price is to be assumed.

Associations and companies may present a tax number to pay the net price only (reverse charge).

Surcingle

Vaulting surcingle of any brand of your choice is fitted to your MOVIE. We can also help you adapt your existing surcingle.

Rent Information

For legal reasons, the rental option is offered only within Germany. The rent is to be paid beforehand every month. The vaulting surcingle for the training device MOVIE is included for the rental period. The conditions are determined in the renting contract.

Long term rental

250 EURO / month (duration longer than 12 months)

Event rental

100 EURO / 1. day – additional days 100 €/day
for a period of eight days and more, the rent is € 60 per day

All rental options require a deposit of 500 EURO.

Further Information

- ⌚ Placing the MOVIE inside the riding hall might be allowed for short-term events (event rental), but this type of application should always be discussed with us.
- ⌚ During any access and operating time of the MOVIE in both cases of purchase and rent, trained care personnel (of legal age) must be present. When no supervision is present, the MOVIE must be made inaccessible for safety reasons (removal of the remote control).
- ⌚ The handling of the device is explained in a briefing given by our staff at time of delivery. It further is explained in the instruction manual.
- ⌚ Careful handling is expected while using the rental MOVIEs.

Time of Production & Transportation

The delivery time after purchase is typically two to three months. We are happy to discuss the current production situation in a personal communication. Our rental MOVIEs are available immediately upon request and availability.

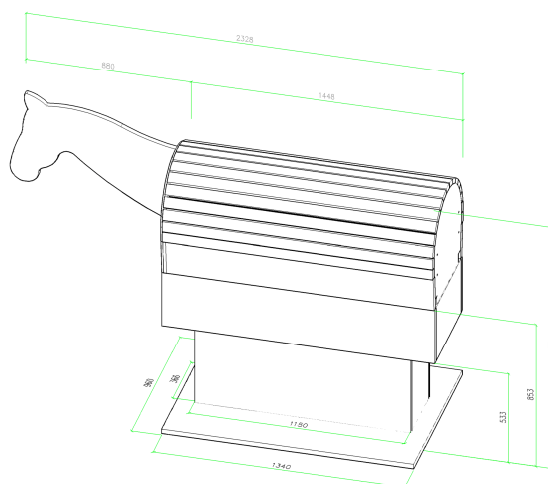

The transport of the MOVIE is up to the buyer / renter. The order of delivery may also be transferred to us.

- ⌚ Sales and pickup location:
Friedrich Dopheide OHG | Oerschbachstr. 45 | 40599 Düsseldorf

Dimensions

If the head or neck element and the base plate are dismantled, the following minimum dimensions remain:

- ⌚ Length: 150 cm
- ⌚ Width: 60 cm
- ⌚ Height: 150 cm
- ⌚ Weight: 240 kg

We are always trying to improve the MOVIE. Therefore, the technical and price information given here corresponds to the current production series and may differ from other future manufactured devices.

We hope that this leaflet is informative and may help you for your further consideration.

We are happy to help you with any remaining questions and also advise you about official funding opportunities (subsidies for large sports equipment, etc.). Your personal contact for further consultation is
